WEEK	AI & ADVANCED CODING 9:30AM - 11:45AM	NEXT-GEN AI ENGINEERING 11:45AM - 2:00PM
Week 1 Jul 6 - Jul 10	<p> Agentic AI</p> <p>Students build real automation workflows on Zapier, Make.com, and n8n, progressing from simple triggers to branching logic. On Day 5, teams solve a real business scenario using an agent they design themselves.</p>	<p> AI/ML with Python</p> <p>Students write Python to call AI APIs, process data, and train a basic classifier. They see what happens under the hood of every AI tool and leave knowing how to build with AI, not just use it.</p>
